Please read carefully before completing this form

- Please check the Scopus title list to determine whether the title you wish to suggest is already in Scopus. Please be aware that active Medline-sourced titles (see column M in the title list) may also be suggested for full Scopus coverage.
 - New titles are reviewed on a continuous basis by the independent Scopus Content Selection & Advisory Board (CSAB).
 - We strive to evaluate new title suggestions as quickly as possible, however, please allow for several months up to one year for the review process to be completed.
 - The CSAB uses sample documents of published content to evaluate the quality of a title. We recommend that a title has published for at least two years before it is suggested for inclusion in Scopus and we may reject a title suggestion for review if the publication history is too short to review the title.
 - You will be asked to provide sample PDFs as a final step in the title suggestion process. **It is not possible to complete the title suggestion process without uploading PDFs.**
 - Be aware that the evaluation of a title is not influenced by the number of times it is suggested. Multiple submissions of the same title will only delay the review process.
 - Review of your title suggestion does not guarantee selection of the title.
- If you have any questions about the evaluation process, you can contact us at titlesuggestion@scopus.com.

Titles will only be considered for evaluation if they meet the following [minimum criteria](#):•The title should publish peer reviewed content.

- The title should be published on a regular basis (i.e. have an ISSN confirmed by the ISSN International Centre). To register an ISSN, please [visit this page](#).
- The title should have English language abstracts and article titles.
- The title should have references in Roman script.
- The title should have a publication ethics and publication malpractice statement.
